Portfolio : <https://portfolio-website-two-pearl-82.vercel.app/>

Motivated IT undergraduate at SLIT with hands-on experience in full-stack web development through academic and personal projects. Skilled in React.js, JavaScript, Node.js, Express.js, Spring Boot, PHP, MongoDB, and MySQL, with experience in developing REST APIs, database-driven applications, and responsive user interfaces. Experienced in building and contributing to full-stack applications, including restaurant management, e-commerce, and university management systems. Eager to apply my technical and problem-solving skills in a Full Stack Development / Software Engineering internship while continuing to grow as a software developer.

TECHNICAL SKILLS

Frontend Development: HTML, CSS, React.js, Tailwind CSS

Backend Development: Spring Boot, Node.js, Express.js, REST APIs

Programming Languages: Java, JavaScript, Kotlin, Python, PHP

Databases: MySQL, MongoDB

Developer Tools: Visual Studio Code, Eclipse, Android Studio, Git, GitHub

UI/UX Design: Figma

PROJECTS

❖ FoodieHub – Smart Restaurant Management System (Individual) (2026)

Tools: React, Node.js, Express.js, MongoDB, REST API, GitHub

- Developed a full-stack restaurant management system with role-based authentication and dedicated dashboards for Admin, Kitchen Staff, Cashier, Delivery Staff, and Customers. Implemented food management, kitchen workflow, delivery management, customer reviews, responsive interfaces, and REST APIs integrated with MongoDB.
-

❖ DailyVibe - Mobile Application (Individual) (2025)

Tools: Android Studio (Kotlin + JAVA)

- Developed a mobile application featuring Habit Tracking, Mood Journal, and Hydration Tracker to help users manage their daily well-being.
-

❖ Earthquake Alert – Mobile App UI/UX Design (Individual) (2025)

Tools: Figma

- Designed a user-friendly mobile application prototype for earthquake alerts and emergency response, including wireframes, high-fidelity UI screens, and interactive prototypes.

❖ SmartCampusHub (group) (2026)

Tools: Spring Boot, React.js, MongoDB, GitHub

- Developed the Facilities Management Module for a university support platform, implementing CRUD functionalities for administrators to manage facilities. Developed backend REST APIs using Spring Boot and contributed to database integration, testing, debugging, and system enhancement.

❖ SmartUniHub (group)

(2026)

Tools: React.js, JavaScript, MongoDB, GitHub

- Developed the Canteen Management Module with food viewing, stock availability, promotions, and order tracking. Implemented a food assistance request system and contributed to Event Management features including event creation, approval workflows, calendar integration, stall requests, event history, and gallery functionalities..

❖ Harsha Fashion - Online Clothing Store Management System (group)

(2025)

Tools: MERN stack, JavaScript, REST API, GitHub

- Developed a full-stack MERN e-commerce platform with authentication, product browsing, filtering, cart, online payments, order tracking, refund/exchange requests, delivery updates, and admin dashboards. Implemented automatic PDF generation.

EDUCATION

- BSc (Hons) Information Technology (2023 - 2027) – SLIIT university
- G.C.E. Advance Level Examination (2020) - Agamethi Balika Vidyalaya ,Panadura.
- G.C.E. Ordinary Level Examination (2017) - Agamethi Balika Vidyalaya ,Panadura

SOFT SKILLS

- | | |
|----------------------|-------------------|
| • Problem Solving | • Time Management |
| • Team Collaboration | • Leadership |
| • Communication | • Quick Learner |

Certifications

- MongoDB Data Modeling
- Web Design for Beginners – University of Moratuwa
- Front-end web development - University of Moratuwa
- Python for beginners - University of Moratuwa
- Python programming - University of Moratuwa
