LinkedIn: www.linkedin.com/in/wasana_wickramaarachchi-9517a7396/

Motivated IT undergraduate of SLIIT with strong skills in full-stack development, specializing in Java (Servlets/JSP), Spring Boot and the MERN stack. Experienced in developing real-world systems including e-commerce platforms, university management systems, support portals, and health-tracking mobile applications. Proficient in designing responsive user interfaces, developing RESTful APIs, managing databases, and implementing scalable software architectures. Adept at problem-solving, debugging, and delivering efficient, user-focused features. A collaborative and quick to learn new technologies, eager to take on challenging projects that deliver meaningful impact..

AREA OF EXPERTISE

Frontend Development: HTML, CSS, React.js

Backend Development: Spring Boot, Node.js, Express.js

Programming: Java, JavaScript, Kotlin

Database: MySQL, MongoDB

Developer Tools: Visual Studio Code, Eclipse, Android Studio, Git, GitHub

UI/UX Design: Figma

PROJECTS

- **SmartCampusHub (group)** (2026)
Tools: Spring Boot, React.js, MongoDB, GitHub
Developed the **Facilities Management Module** for the university support platform. Implemented **Add, Update, and Delete (CRUD)** functionalities for administrators to manage university facilities efficiently. Designed and integrated backend APIs using Spring Boot for facility management operations. Participated in database integration, testing, debugging, and system enhancement activities.
- **SmartUniHub (group)** (2026)
Tools: React.js, JavaScript, MongoDB, GitHub
Developed the Canteen Management Module with food item viewing, stock availability, promotions, and order tracking features. Implemented a food assistance request system that allows students to request nearby friends to collect food. Contributed to the Event Management Module, including event creation, approval workflows, and calendar integration. Developed stall request management, event history, and event gallery functionalities. Participated in testing, debugging, and database integration activities.
- **Online Clothing Store Management System (group)** (2025)
Tools: MERN stack, JavaScript, REST API, Git
Developed a full-stack MERN e-commerce platform with login, product browsing, filters, cart, online payments, and order tracking. Includes refund/exchange requests, delivery updates, and admin dashboards for product, stock, user, and order management and auto PDF creating for payment receipts.

- **DailyVibe Mobile Application (Individual)**

(2025)

Tools: Android Studio (Kotlin + JAVA)

DailyVibe is designed to track and improve their overall health through several interlinked features that Habit Tracking, Mood Journal, Hydration Tracker

EDUCATION

- BSc. Hons Information Technology – SLIIT university (2023 - 2027)
- G.C.E. Advance Level Examination (2020) - Agamethi Balika Vidyalaya ,Panadura.
- G.C.E. Ordinary Level Examination (2017) - Agamethi Balika Vidyalaya ,Panadura

SKILLS

- | | |
|----------------------|-------------------------|
| • Problem Solving | • Time Management |
| • Project Management | • Creativity Leadership |
| • Team Collaboration | • Critical Thinking |
